

Yeah, i may have [WebMD](#) official 
 **Chronic diarrhea,**
the **meat sweats** 
and **LACTOSE INTOLERANCE**
but at least i'm not a
vegan 

 **don't worry!!** 
your kids will find your
quirky obsession with
BACON 
super cute while 
they're dying of  and zoonotic
HEAT STROKE disease

i'll ONLY **FRIED** 
take my **CHICKEN**
   
with a side of
Global 
ecosystem 
collapse  

i'll go **VEGAN**
when they add **PUSS**
    to oat milk
and Elevated  
cancer risk to beyond
burger

The #1 funnest part
of eating HOTDOGS is
not knowing when the
horse who  
died of cancer
ends and the
hormone cow who collapsed
and drowned in their own feces
begins because it all
tastes the same  

Vegan??????
(   ) **ARE YOU KIDDING ME**  
Picking the
cancerous tumours
out of my dinner is the
 **BEST PART**
